AAU at "Sustainability, Water Governance & Policy" Session

The AAU Deanship of Student Affairs in Abu Dhabi campus participated in the 'Hiwar' session entitled "Sustainability, Water Governance & Policy" organized by the Abu Dhabi Sustainability Group. Experts and professionals in the field of water and sustainability were present at the session which focused on water governance and sustainability policies and provided a platform for knowledge sharing of key issues.

The session also shed light on a number of relevant matters including the Abu Dhabi water regulations and monitoring, the importance of behavior change and awareness to support the delivery of the Emirate's water strategy, active stakeholder participation, and providing essential data necessary in the decision making process with regard to the sustainable management of water resources in the region.
