## **An Introductory Lecture on "Career Advising"**

The Student Affairs Deanship at Al-Ain University of Science and Technology, based in Abu Dhabi, in cooperation with the Abu Dhabi Education Council and the Community Engagement in the College of Education, has conducted an introductory lecture on "Career Advising at the University", which was in the presence of members of the academic and administrative bodies and university students.

And professor Clayton Kindi gave a detailed explanation about the career planning system for university students in Abu Dhabi, he also spoke about the Abu Dhabi Education Council initiative to create a system that helps students to identify future career path and learn the skills of choosing the appropriate major, which are assets as they get the initiative to create a CV for getting good jobs in the future.
