A training course for participating students of AAU in Abu Dhabi Science Festival

In Collaboration with Abu Dhabi Education Council, the Deanship of Student Affairs at the Al Ain University of Science and Technology in both Abu Dhabi and Al Ain Campuses organized a training course for the university participating students in Abu Dhabi Science Festival 2016 as guides and assistants to explain the scientific experiments for school students.

The course included a training on scientific guidance way and a training on a group of scientific experiments which aims to improve self-confidence and communication skills among the students in a funny manner to inspire the new generation to look on to the future.

The trainers focused during the session to provide science and technology topics to facilitate students' understanding, clarify their benefits in their daily life and to encourage them to the

future careers which depend on these sciences.

It is worth to mention that the training course was attended by a large number of students from various colleges.
