A sustainable book exhibition on the occasion of International Day for Tolerance

The Deanship of Student Affairs in collaboration with the Student Crescent Club at the Al Ain campus, organized a cultural exhibition for the exchange of used books to promote their circulation and reuse. The event was attended by Prof. Ghaleb Al-Refae, the AAU president.

These books were donated by professors and students as part of a cultural campaign organized by the Deanship to encourage reading. The exhibition featured a variety of content, including historical, Islamic, literary, cultural, and novel books, along with a diverse collection of books related to all scientific disciplines offered by the university.
