## Law Students Search for the Crime Suspect

A group of female law students from the Abu Dhabi campus, under the supervision of Prof. Ramzi Ahmed Madi, Vice Dean of the College of Law, designed a theatrical crime scene revolving around the concept of human trafficking, specifically "the theft of organs from death row inmates."

The activity was attended by Professor Amer Qasem, Vice President of the University, associate deans of the colleges, faculty and administrative staff, and a number of students who participated in solving the mystery of identifying the real criminals.

This activity aims to enhance the theoretical knowledge that law students acquire during their studies and work on applying it practically to practice criminal analysis, uncover the truth, reach the real criminal, and achieve justice.
