

Deanship of Student Affairs

About Deanship > Advisory Council

Advisory Council

The Deanship of Student Affairs seeks continuous communication with the local community institutions and creating opportunities for mutual cooperation with them. Based on this principle, an advisory council for the Deanship of Student Affairs has been formed to drive the community engagement in line with the requirements of local and international academic accreditations. The advisory council includes members from various institutions in fields that align with the University's diverse academic programs, such as Health, Engineering, Law, Education, Business, Media, and others.
