

Deanship of Student Affairs

[About SAD > Overview](#)

Overview

The Deanship of Student Affairs at Al Ain University was established in the Academic year 2005-2006 to support the academic missions of the University. The Deanship develops programs and services that serve the community, ensure a respectful environment, and enrich the overall student experience. We strongly believe that our programs and services will help students succeed in their academic, personal, and professional lives. The Deanship coordinates between the two branches in Al Ain campus through its dean, and in Abu Dhabi campus through the deputy dean. Both campuses have the same divisions and they coordinate in all events.
