

Deanship of Student Affairs

About SAD > Overview

Overview

The Deanship of Student Affairs at Al Ain University of Science and Technology was established in the Academic year 2005- 2006 to support the academic missions of the University.

The Deanship develops programs and services that foster community, ensure a respectful environment, and enrich the overall student experience. We strongly believe that our programs and services will help the students to succeed in their academic, personal, and professional lives.
