Student Clubs at the Deanship of Student Affairs

To activate the role of students in university life and refine their personalities, the Deanship of Student Affairs has established student clubs at the university level in both campuses, operating under the supervision of the Student Affairs Deanship and monitored by faculty members from all colleges as responsible for club activities. They gather students, register them, follow up on their proposals for activities and events, and implement them according to university instructions. The Student Affairs Deanship has created a registration link for all clubs, which has been disseminated among students through all available means. These clubs will also be integrated into the Student Council committees to work together seamlessly.
